

FIG. 2

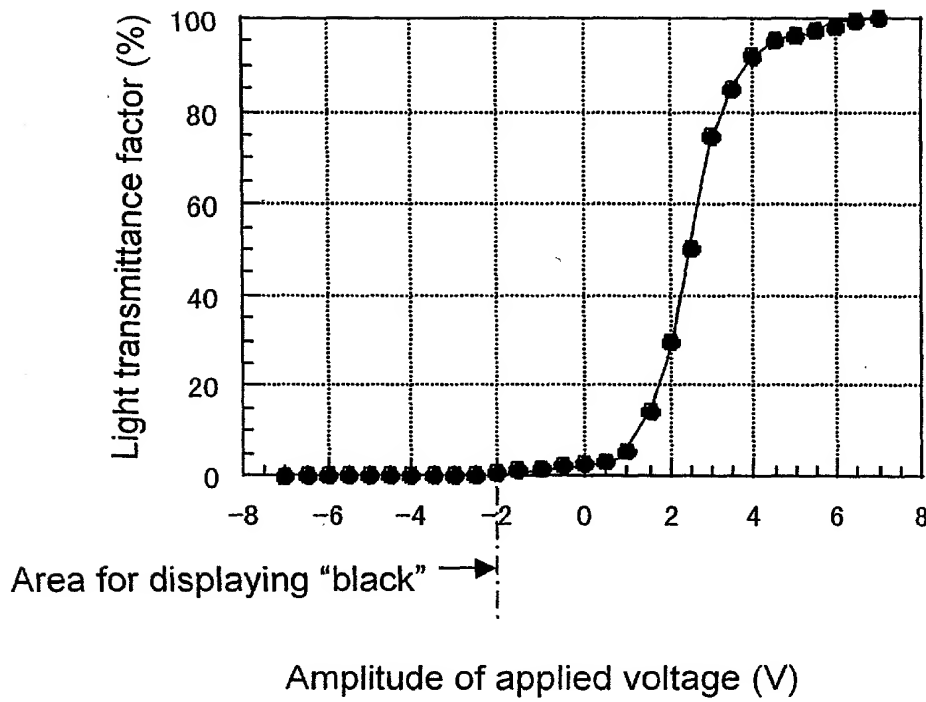

FIG. 3A

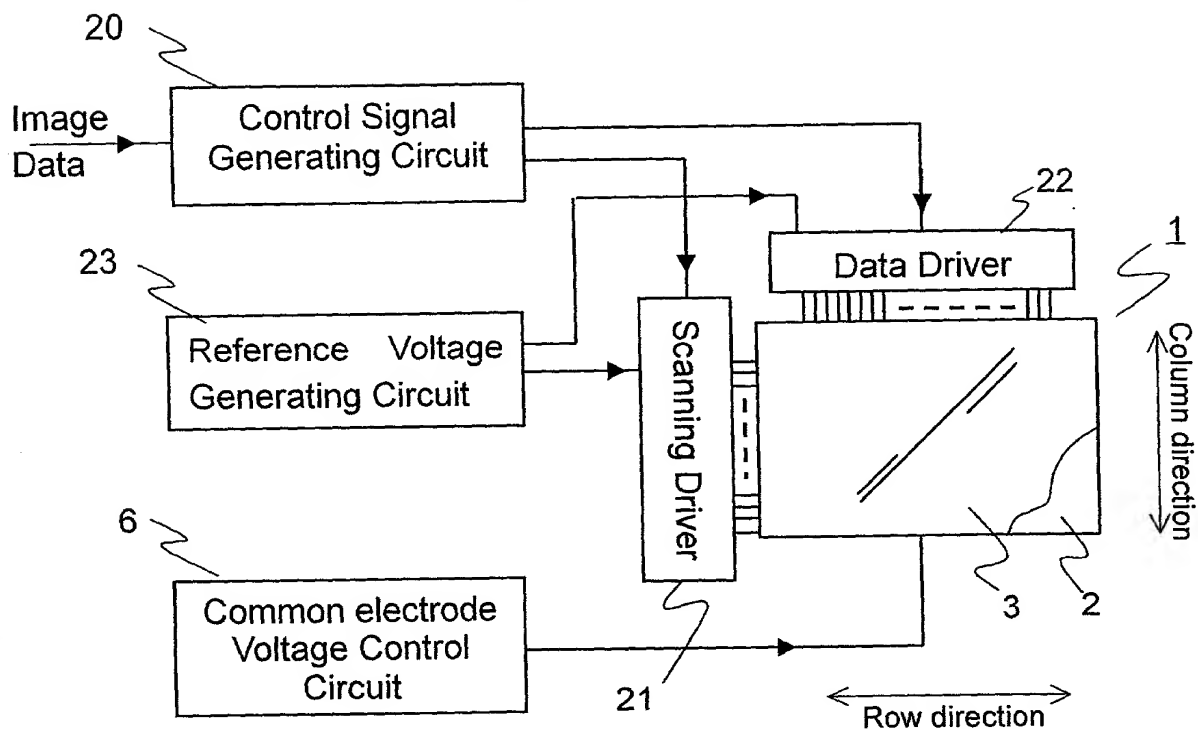

FIG. 3B

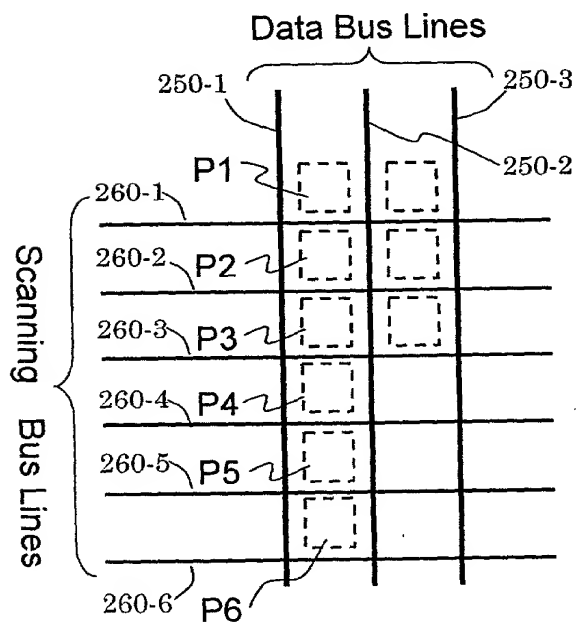

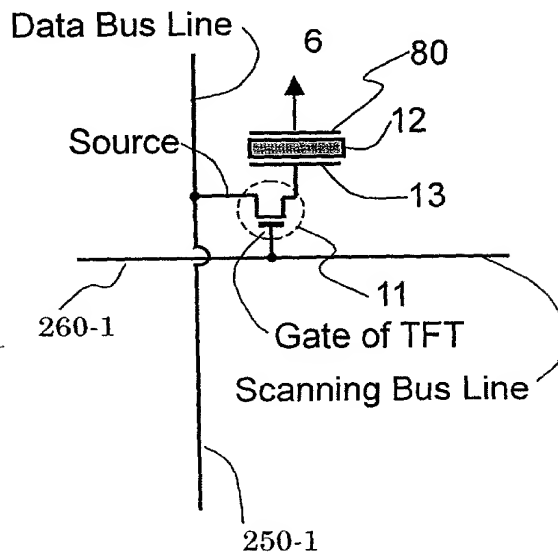

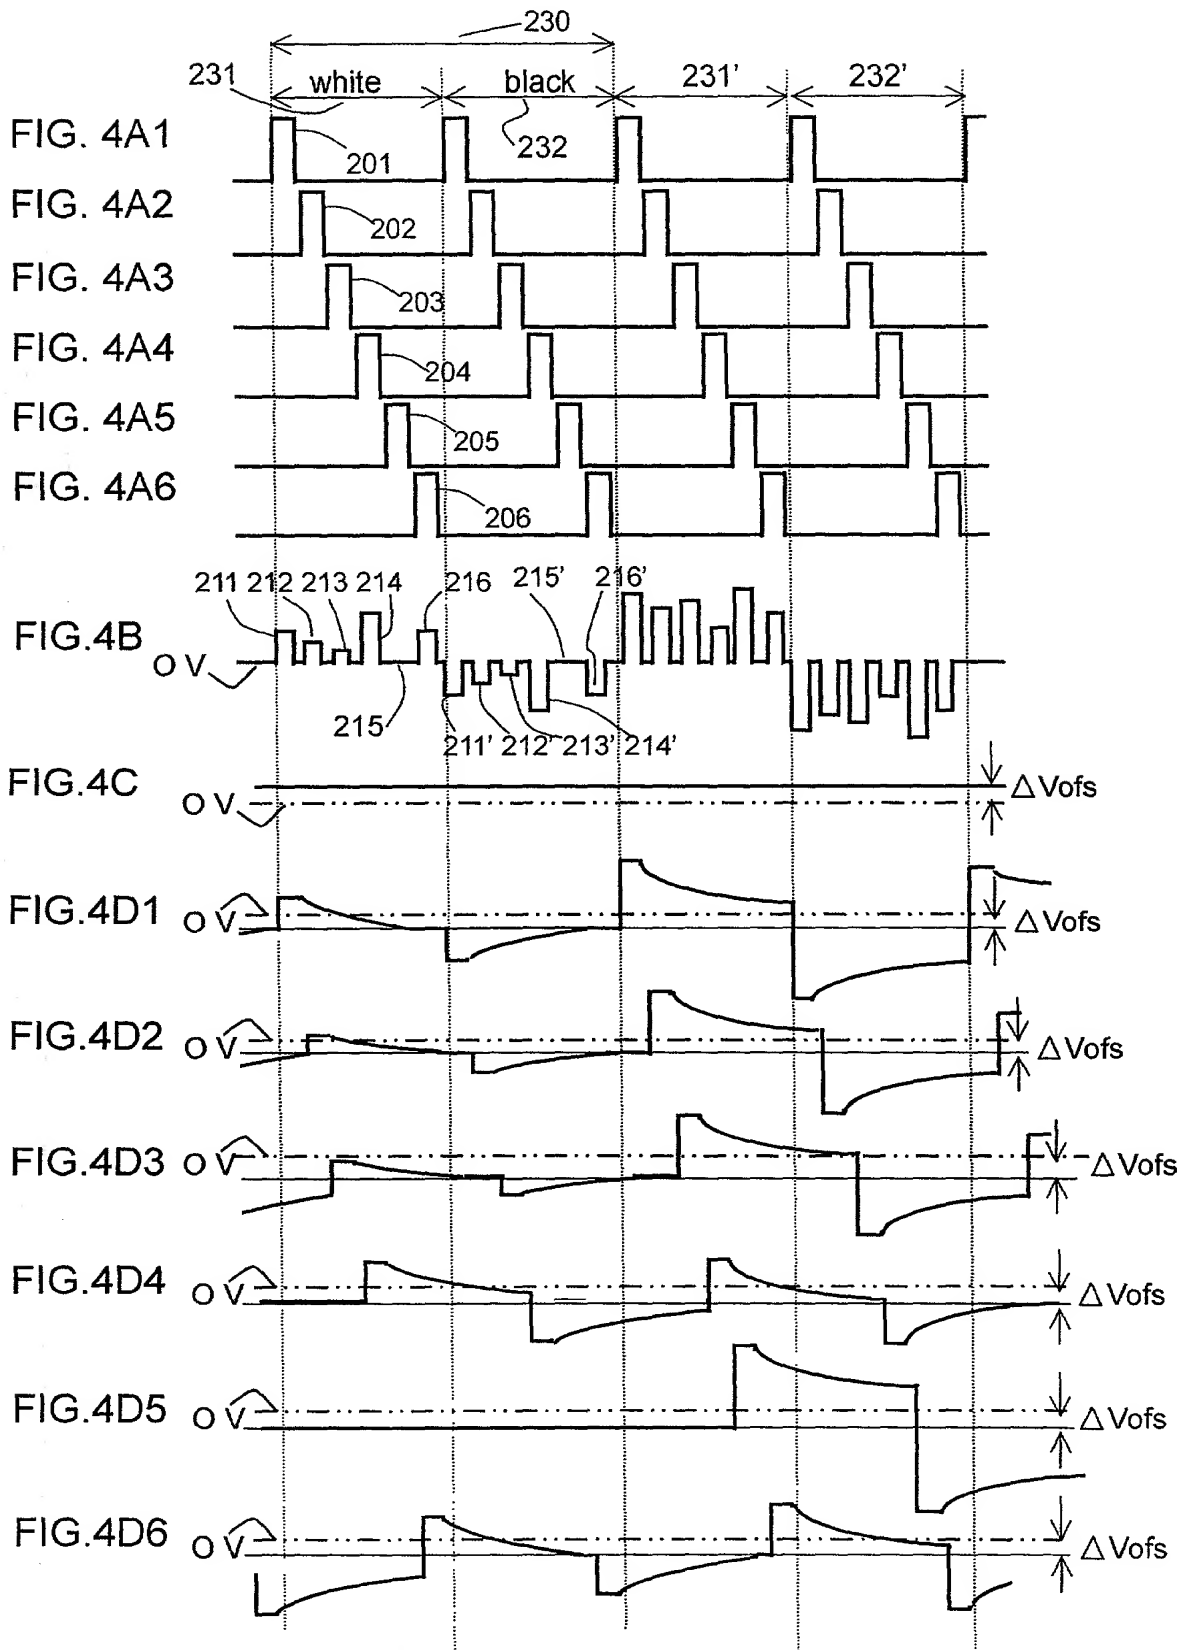

FIG. 3C

A detailed cross-sectional view of a multi-layered structure, labeled 1. The structure consists of several distinct layers and regions. At the top and bottom are checkered patterned layers, both labeled 65. Below the top checkered layer is a large white rectangular region labeled 61. Underneath region 61 is a dark, textured layer labeled 80. This is followed by a thin layer with diagonal hatching, then a layer with a fine dotted pattern labeled 71. Below this is a thick region with horizontal black bars, labeled 12. At the bottom of this region is a thin layer with horizontal dashed lines. Below the horizontal bar region is a complex, irregular structure labeled 11, which includes a grid-like pattern and a solid dark area. To the right of this structure is a layer with diagonal hatching labeled 70. Below the grid structure is a large white rectangular region labeled 2. To the right of region 2 is a layer with diagonal hatching labeled 13. The entire structure is bounded by a wavy line on the right side, labeled 3.
